

Mobile Guardian for Districts

Managing the schools in your district has never been this simple

You don't need an army to manage your mobile devices

- **Remotely manage** all school accounts in your district
- Efficient multi-school setup, seeding and device onboarding
- **Centralized device licence** management and allocation
- Aggregated view of all district MDM information from an **easy-to-use dashboard**
- Manage your integrations, tokens and certificates for all schools in one place

Ensure global adherence to district-wide policies

- **Ensure policies are honoured** throughout the district
- Control the level of access and configuration allowed at the school level
- **Force restrictions** that cannot be overridden
- Centrally manage all policies and push policy updates for each school
- Enforce the permissions relevant to your unique MDM setup

Track device-usage trends and receive actionable insights

- View aggregated data and **create reports** for enhanced usage management
- **Access audit reports** on usage and actions throughout the system
- Configure the card-based dashboard to keep you notified at all times
- Understand the full picture and **know when to take action**
