Best-in-class mobile device management

Purpose-built for education, Manage by Mobile Guardian is a cloud-based, easy-to-use mobile device management solution that helps schools manage countless mobile devices. Access detailed reports, ensure devices are up to date and lesson ready.

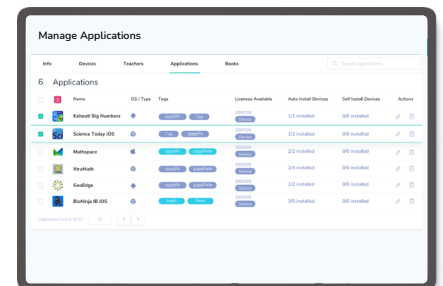

Flexible Profiles

Determine device behaviour according to your unique policies, creating online learning environments that are nuanced and adaptable according to your requirements.

Remote Device Management

Restrict use of the device remotely, deactivating camera functionality, screenshots, sending and receiving of SMS' and much more.

Application Management

Manage applications on student devices before or during class. Revoke access to distracting apps and ensure students have all they need to excel in class.

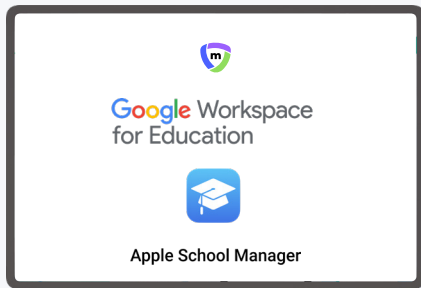

"Our fleet of Chromebooks & iPads needed to abide by our ePolicies, which was challenging to implement with the devices off premises. The (Mobile Guardian) team was incredibly helpful. Understanding the urgency and time pressure, they set us up with an account very quickly!"

Jacques J.
Lead Science and Technology Teacher

Official mobile device management vendor for Singapore's schools

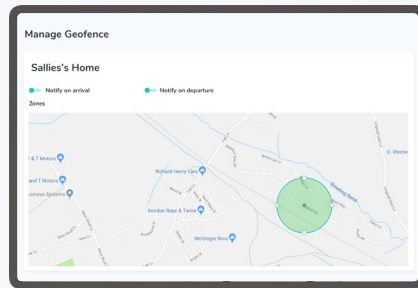

Ministry of Education
SINGAPORE

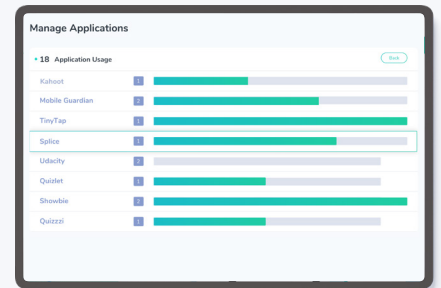

Seamless Integration

Whether integrating Google Workspace or Apple School Manager, setup with Mobile Guardian is a seamless and fluid experience.

Time & Location Based Profiles

Set device usage policies and rules that adapt depending on time and the location of devices. Easily implement different device states whether the device is at home or at school.

Application Usage Reports

Understand how students utilise applications in-class and at home. Empower educators to make decisions that will maximise the return on investment across all device types.

Award-winning features

Customisable Dashboard

Customise your dashboard to gain insight into crucial insights at a glance; from most used apps, blocked search terms to device locations.

Seamless Integration

Whether integrating Google Workspace or Apple School Manager, setup with Mobile Guardian is a seamless and fluid experience.

Multi-OS Management

Manage your entire mix of learning devices with a cloud-based mobile device management solution that is able to support multiple operating systems.

Remotely Wipe Devices

Save time by remotely wiping mobile devices when setting up your devices at the beginning of the year for a fresh start.

Word-class Support

Our customer support team always goes the extra mile for our customers. They are online and standing by to help.

Data Compliance

We at Mobile Guardian take data safety and security very seriously. Our solutions are CIPA, GDPR, and PDPA compliant for complete confidence in your data's safety.

"We required a solution that would enable us to manage an entire suite of iPads on one platform. Once installed, one of the immediate benefits of Mobile Guardian was the simplification of managing devices for our school."

R. Falcon,
IT Manager
