

“Mobile Guardian is the best mobile device management solution.”

J. Cripps
Deputy Principal

Cannons Creek School

Campus Solution

Location

South Africa

Device Quantity

170+

Device Type

iPads, Chromebooks

Cannons Creek Challenge:

We were on the lookout for a solution to help us effectively manage our multi-OS learning environment consisting of iPads and Chromebooks. In particular, we needed to effectively roll-out apps and ensure student’s devices are kept up to date, keep students on-track and without distraction during class.

The Solution:

Mobile Guardian works seamlessly throughout our organisation which includes both Chromebooks and iPads. The control and rollout of apps to our iPads is easy to manage and the screen monitoring feature for our students with Chromebooks is a useful and necessary tool to have in an educational environment.

The location feature has been a lifesaver!

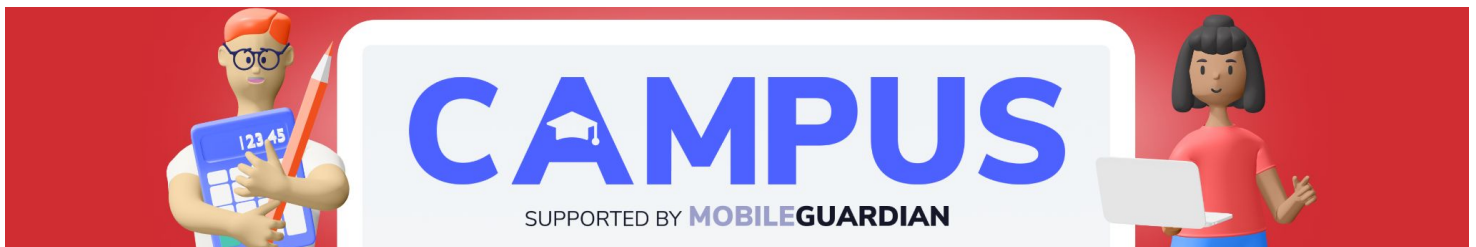

We have been using Mobile Guardian for a few years now and the location feature has been a lifesaver when tracking down a missing device. Support is always helpful and they explain things in a way that isn't too techie but understandable.

Our teachers love the ability to monitor the pupils' online activities

As educational institute, we were very impressed with Mobile Guardian. We rely on our Campus solution to keep our pupils' online experience safe a safe one, without exposure to inappropriate content. We have been very happy with the ability to monitor the pupils' online activities.

Convenient to deploy and manage apps with automatic updates.

We're able to enroll devices on the management system and deploy apps from to the iPads in one convenient place as well as syncing updates automatically.

Our Report Card

“Mobile Guardian is the best mobile device management solution.”
