

The International
School of Lausanne

Manage Solution

Location

Lausanne, Switzerland

Device Quantity

550+

Device Type

Android, iMacs & iOS

International School of Lausanne's Challenge:

Our previous MDM solution was challenging and the deployment was an overly complex process. We needed to be able to make deployments more easily and quickly as it was time consuming to complete MDM related tasks.

The Solution

After being introduced to Mobile Guardian, we were able to quickly learn and understand how to deploy applications within our multi-platform environment with ease and efficiency. This made Mobile Guardian's Manage Solution a game-changer for us and it improved our device management workflow considerably.

Likelihood to Recommend

Mobile Guardian is ideal for our multi-OS learning environment.

At the International School of Lausanne, we foster a multi-OS environment to our learning community. Mobile Guardian provided the solution we were looking for, which allowed us to manage all our devices.

Mobile Guardian has simplified our deployment process considerably.

Mobile Guardian's ease of use has simplified our whole deployment process drastically. The user interface is easy to understand compared to our previous solution and enabled us to improve our deployment process, as well as gain efficiency in productivity and time.

Managing devices is now faster and easier than ever.

Overall, with Mobile Guardian's Manage Solution, it's faster, easier and more cost-effective solution to manage devices! The International School of Lausanne would recommend Mobile Guardian to other schools looking for a one size fits all MDM solution.

Our Report Card

“Mobile Guardian’s ease of use has simplified our whole deployment process drastically. The user interface is easy to understand compared to our previous solution and enabled us to improve our deployment process, as well as gain efficiency in productivity and time.”
